Artist Statement "For me, painting is an inner passion, to give colour and form to 'feelings'. I absorb everything around me; sounds, colours, shapes, words, and am fascinated how these elements can stir such emotions in people. I always listen to music when I paint. It inspires me and often the music will influence my painting. My painting is a journey, I find it totally exhilarating. I never know where the next painting will take me, yet I know it will always be exciting and rewarding."
